

Introducing Destiny Spirit Apostolic Network

For quite some time, we have been sensing and prophesying change. We have

been like the caterpillar encased in his tight cocoon, waiting for the day of release. That season of metamorphosis has come with great struggle, challenges, and uncertainty, during which we have all been dramatically transformed. Now as a butterfly, we are emerging into the next stage of maturity and God-chosen purpose to live a new kind of life.

Destiny Spirit has always been a training, equipping, and sending ministry. We have seen many people come through, receive prophetic ministry, teaching, training, and healing. Now we have evolved and expanded into a training ministry without walls. We are a trans-local network of people committed to advancing the Kingdom of Jesus Christ in various forms. ■
